

(A) density maintenance theory

$$\frac{S_A}{V} = \frac{\text{membrane proteome fraction} \cdot |\phi_{mem} \kappa| \text{ density ratio}}{2 \left[1 + \frac{M_{RNA}}{M_{prot}^{(tot)}} - \phi_{mem} - \frac{\phi_{peri}}{\text{periplasmic proteome fraction}} \right]}$$

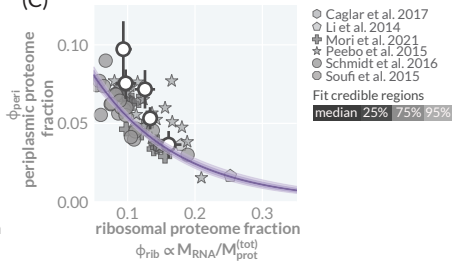

surface-to-volume ratio

RNA-to-protein ratio

(B)

(C)

(D)
